Dear Colleagues –

You had asked us to keep you updated about developments relating to Hunters Point Naval Shipyard. EPA received a FOIA request from Liz Wagner, NBC Bay Area News, requesting contents of an electronic folder used to share files among the EPA, State of California Department of Toxic Substances Control (DTSC), and California Department of Public Health (CDPH). Each agency independently conducts its own analysis. We share our analysis and technical comments to learn from one another's expertise. Today, we sent the attached letter with a link to 167 responsive documents.

Please note that many of these documents were already released to Greenaction's attorney in May 2018, in response to his earlier FOIA request. You can access all of the documents released in response to this NBC FOIA request at <https://www.foiaonline.gov>. To access the documents, reference this FOIA request as EPA-R9-2018-009089. In addition, in the spirit of transparency, EPA has made accessible via our website all our official comments to the Navy about Tetra Tech EC Inc. Please contact me at 415.947.4256 if you have questions about this or any other matter.

Regards,

Brent Maier
